## OUTPATIENT MEDICINE, THE WAY OF THE FUTURE

Modernize your medical office with STAT access to multiple services. Located in the heart of Monroeville, just minutes off of the PA Turnpike, the Parkway, and Forbes Regional Hospital. Turn-key state-of-the-art medical office space available with flexible lease options.

## EMPOWER YOUR PRACTICE

Ideal for physicians who want the luxury of grade A office space, and access to the latest medical technology, without investing in machinery, technicians, etc. Allows physicians to share office space and general resources and provides physicians and specialists with a range of outpatient, diagnostic testing services in a STAT manner in one convenient location.

## FLEXIBILITY TO YOUR OFFICE

At James Place Medical Center, time share physicians have the option of bringing in their own staff and utilizing medical space all day, or just for certain periods of time. Flexible lease options and terms available.

## STAT LAB

James Place Medical Center houses a full-service CLIA certified Laboratory on the second floor that offers a complete menu of outpatient testing. The laboratory and draw station on the second floor is available to physicians treating patients with STAT blood testing. Cardiac enzymes, PT, drug levels, routine chemistry and other esoteric testing available. Med Health Services Lab provides testing to more than 300 location in the Tri-State area.

## PLAIN FILMS & NON-INVASIVE ULTRASOUND

# Radiology

At James Place Medical Center, our physician offices are fully staffed with credentialed ultrasound technicians to provide cost-effective STAT and URGENT ultrasound testing solutions. We offer all modalities of non-invasive ultrasound testing, allowing physicians to view imaging with their own eyes. STAT results are provided to the physician within an hour. Nuclear Cardiology and STAT plain films are also provided.
